

## IP42 plastic load centres and MCB enclosures

### Product Description & Specifications:

The Eureka range of IP42 plastic load centres are available from 1 to 36 pole

The range includes flush and surface mount units with opaque or transparent doors . Each load centre comes complete with -

- 1 x earth bar to suit
- 3 x Neutral bars (for protected and unprotected circuits) to suit
- Pole fillers
- Commoning bar to suit
- Legend circuit identification sticker

As with current AS/NZ standards all flush mount units have a metal base with a 100mm overhang for cable protection at the top of the enclosure.

The units can be padlockable with the purchase of a load centre padlocking kit when required.

The range includes surface mount units with pole filler knock outs. All units are complete with fixed Din rail and have a screw lid
